

COMMUNITY OF HOPE

...hope is contagious

Imagine the people of God becoming known for their *compassion...*
More than advice!

Presence... Care... Acceptance... Compassion...

Letters to God is the story of what happens when one boy's hope crosses paths with one man's search for meaning. The resulting transformational journey touches the lives of everyone around him as his Letters to God become caring prayers.

Letters to God's mission is to help equip friends, families and communities to better provide compassionate care and practical support to families dealing with pain.

Letters to God is a reminder that our families, friends and faith based institutions can become a Community of Hope.

This is what you can experience when you are in a **Community of Hope!**

Equip your church with ▶

Ignite the vision for becoming a Community of Hope!
